3. Monetization Models

We propose the following software monetization models for making our system sustainable:

(A) License

Discuss the monetization model. Describe in details how you would charge your clients and/or users. Provide a rough (but logical) estimate of the total incomes and revenues you will generate for the proposed monetization model. Estimate length: half a page.

(B) Advertising

Discuss the monetization model. Describe in details how you would charge your clients and/or users. Provide a rough (but logical) estimate of the total incomes and revenues you will generate for the proposed monetization model. Estimate length: half a page.

(C) Transaction Fees

Discuss the monetization model. Describe in details how you would charge your clients and/or users. Provide a rough (but logical) estimate of the total incomes and revenues you will generate for the proposed monetization model. Estimate length: half a page.

(D) Support

Discuss the monetization model. Describe in details how you would charge your clients and/or users. Provide a rough (but logical) estimate of the total incomes and revenues you will generate for the proposed monetization model. Estimate length: half a page.
